

We are a Global Leader in Energy & Data Transmission Systems with a broad spectrum of products to fit your needs and application. **We offer Engineered Solutions** for your unique and complex applications, with demanding requirements when off the shelf won't work. **We have five Centers of Excellence:** United States, Germany, France, Italy & China. So no matter where you are, we have you covered. **We have Extensive Experience** with almost a century of expertise in design and manufacture for our markets. We understand your business! **We offer Reliable Sales Expertise, Short Lead Times & Service** with stocking warehouses in the United States, Canada, Mexico and Brazil. **We have Regional Sales Representatives for Local Support** before, during, and after the installation of your Energy & Data solution.

Markets we Serve

- Overhead factory and process cranes
- Bulk handling and mining machines
- Intralogistics systems: AS/RS, AGVs, shuttles, sorters, conveyors
- Port container cranes, terminals, intermodal facilities
- General industry and automation
- Theaters, entertainment venues, and amusement rides
- Mass transit, APMs, and maintenance depots
- Energy/Offshore, construction machines, and special machines

Field Services

We offer an array of expert services for our products & applications, either directly or to support our customers' service teams.

- Installation and commissioning
- Inspections and preventative maintenance
- Training and global repair services
- Repair and spare parts
- Maintenance agreements
- Retrofits, refurbishments, and modernizations

Industrial Grade Spring Cable Reels

- Decades of rugged spring reel experience
- A complete array from small to medium industrial grade spring cable reels
- Large multi-motor units for mills.
- "Hazardous Duty" reels

VersaReel Commercial Cord Reels

- The ideal reels for medium duty commercial applications
- Steel bodied spring-driven driven reels.
- The "Quick Mount" offers the ability to move VersaReel quickly and easily with multiple base locations

Motorized Reels

- Field-proven modular designs for bulk handling, mining, underground, and cranes
- Magnetic coupler, electronic, and direct drives
- Monospiral, level wind, bulk-wrap

Conductor Bar/Rail 40 to 6000 amps

- Global leader in crane conductor bar
- Conductor rails, single & multi-pole for material handling and automation applications. 40 to 6000 plus amps
- We encompass legacy brands such as Insul-8 & Wampfler

C-Track and I-Beam Festoons

- Light duty stretch wire, C-channel, square bar, and medium-duty I-Beam systems
- Flat or round festoon cables
- Available pre-assembled for easy installation
- Plugs, accessories, and control boxes

Heavy Duty I-Beam Festoon

- Port container cranes, and mill process cranes
- Passive and motorized systems
- Available in a wide variety of sizes and design
- Available pre-assembled for easy installation

PowerGuard™

- Engineered to establish a true isolation of the maintenance zone
- Three switch sets for safe operation
- Dual-voltage indicators
- Complies with lock-out/tag-out procedures

BridgeGuard™

- Prevents crane to crane and crane to end collisions
- IP67 rated for indoor and outdoor use
- 3 ft to 115 ft range
- Compliant with IEC 60068-2-6:2007

Airmark Radio Remote Control

- Standard crane three motion, two speed
- Pre-installed indicator horn, light and antenna are included
- Easy transmitter pairing from ground, no ladder or lift required
- Comes standard with primary and spare transmitter.

Push Button Pendants

- Ergonomic & economical
- Wide variety of configurations
- Up to 24 single or multi-speed buttons
- Ideally suited for overhead crane control and other machinery

NxBB

- Hard-wired data over power solution
- Works across all conductor profiles
- Protocols: PROFINET, Ethernet/IP, TCP/IP, UDP, Video

SAGA Radio Remote Controls

- Safe, secure and reliable
- Wide variety of configurations
- Ideal for overhead crane control and other types of machinery

ProfiDAT®

- Original and compact options to meet many applications
- Wireless communication via slotted waveguide.
- PROFIsafe compatible
- Can be integrated into conductor rail systems.

Jay Radio Remote Controls

- Extensive line of remote controls that is customizable to many applications and environments.
- Screen display read-out
- SIL3 / PLe Emergency Stop
- Unique ID codes
- Access limitations

Slip Rings

- Over 70 years experience in modular ring design and manufacture
- Flexible and reliable transfer of energy/data to rotating machinery
- Signal level to over 4000 amps

LJU Automation EMS Controller

- Specialized controllers Programmable by parameters
- Ideal for Electrified Monorail Systems (EMS) at automotive plants
- Over 1500 in service worldwide
